Description of Project:

Application must include all supporting documentation with required information as stated in section 6.5 the North Hero Development Regulations to be considered.

Applicant Signature: *Robert R. Rousseau* **Date:**

Application for obtaining any required water supply and wastewater disposal permit is the sole responsibility of the landowner or applicant and must be done before any construction permit can be issued. To obtain more information, or to determine whether a permit is or is not required, contact the Agency of Natural Resources, Department of Environmental Conservation, and Wastewater Management Division (district 6) at (802) 879-5656.

Hi Dave

This will confirm that we found a suitable disposal location for a new mound system to serve a new 3 bedroom single family home .

If convenient for your surveyor please ask him to locate the test pit area while he is working on this farm and email to me a map showing the new 3 acre lot.

I will complete my survey next spring for permitting the new home.

Thanks

Roy
